

Be Kind Online Class Agreement

Our Class agreement

In school we talked about cyberbullying and learned how someone can be very upset and hurt by it. We have agreed that:

If we are cyberbullied we will:

- Not reply to messages that upset or annoy you.
- Keep the Message to show the person you report it to.
- Block the Sender.
- Tell an adult we trust who can help us.

If we think someone else is being cyberbullied we will:

- Let that person know we support them.
- Not join in or share any comments, posts or pictures that may hurt them.
- Report the bullying to someone who can help - a parent or a teacher.
- Report the cyberbullying to the 'platform'.

If we are involved in or encourage bullying online we will:

- Say sorry to the person you hurt.
- Think before you post online - how will this make other people feel?
- It's okay not to feel okay. But picking on someone because you are feeling upset or angry is not the right way to deal with these emotions.
- Get help from a parent / school counsellor / trusted adult and talk about how you can better deal with how you're feeling.
