

THE NEW EUROPEAN STRATEGY FOR A BETTER INTERNET FOR KIDS, BIK+

BUILDING A BETTER INTERNET FOR YOU

The internet is a great place to:

-  Learn
-  Play
-  Share
-  Watch
-  Connect
-  Express yourself

With our new strategy,
we want ALL young
people to feel safe,
happy and empowered
whenever they go online.

WE WANT TO MAKE SURE THAT:

Your digital world is safe

-  You only see things that are **suited to your age**.
-  Things that you see or do online **don't make you feel weird, sad or uncomfortable**.
-  You are **protected** from cyberbullying, hate and harm.

You have the skills, knowledge and support you need

-  You can learn **how to use the internet safely**, at home and at school.
-  You have the skills to know **what to trust online**, and to decide what's real or fake.
-  You know **where to get help** on online issues.

You have a say!

-  You can use the internet to **take part in issues that interest you**.
-  You can **share your ideas** on the internet you want.
-  We will **listen to your ideas** and work with others to **make change happen**.
